To Whomever it may concern,

I am so honored to have this opportunity to recommend to you Riley Underwood. I had the pleasure of being a coach in the IT Practicum class he took his Junior year of high school (2019-2020). Riley is a diligent, responsible, observant and creative young man.

Riley built a computer secured locking cabinet that could charge chromebooks. He worked with a team of three other students to design, build, code, test and troubleshoot. Riley also wrote a side-scroller video game. He and his peers collaborated to accomplish complex and difficult solutions to mechanical, electrical and computer programming problems.

I really appreciated Riley's maturity and awareness. He demonstrated a strong work ethic combined with a strong awareness of others. Riley was considerate of the needs of his peers and was always quick to offer assistance.

In conclusion, I highly recommend Riley Underwood. He has demonstrated both maturity and capability with scholastic, technical and organizational endeavours. If you have any questions please do not hesitate to contact me.

Sincerely,

Clint Hance
